Location: FHICT R10 building, OIL 3.42(classroom 3.42)

Time: 13:00-13:30

Present: Mieke van Vucht(Tutor)
                 Renis Hila
                 Yoshua Kock
                 Guleesh Spithorst

----

1. **Agenda**

   - Make known the project group members.

   - Display and discuss the progress made so far.

   - Discuss which would be the better way, creating multiply forms or using user control.

2. **Raised Points**

   - Display the UI to the tutor and receiving feedback.

   - Display the separation of work between the group members.

   - Discussed which would be the best to use, user control or creating multiply forms.

3. **Conclusion**

   - We received the approval of the way we had approached the project.

   - We gained feedback of not using the database but instead using csv/notepad file.

   - We decided that user control would be used instead of creating multiply forms.

   - We received tips in order how to approach and be prepare for upcoming meeting in the future.
